Yaroslavsky Recall Effort

Los Angeles – Fix The City has just become aware of a recall effort targeting Councilmember Katy Yaroslavsky. Fix The City is not involved in this effort and only learned of it when a press release was forwarded to us by a media outlet.

Fix The City does not support this recall effort. We believe that if voters wish to change course, the appropriate time to make that decision is during the next election for Council District 5 (CD5).

Recalls should not be used to address policy disagreements—that is what elections are for.
